AP Automation for Microsoft Dynamics 365 Finance

Add the most intuitive and user-friendly accounts payable automation solution for MS Dynamics 365 Finance to your portfolio.

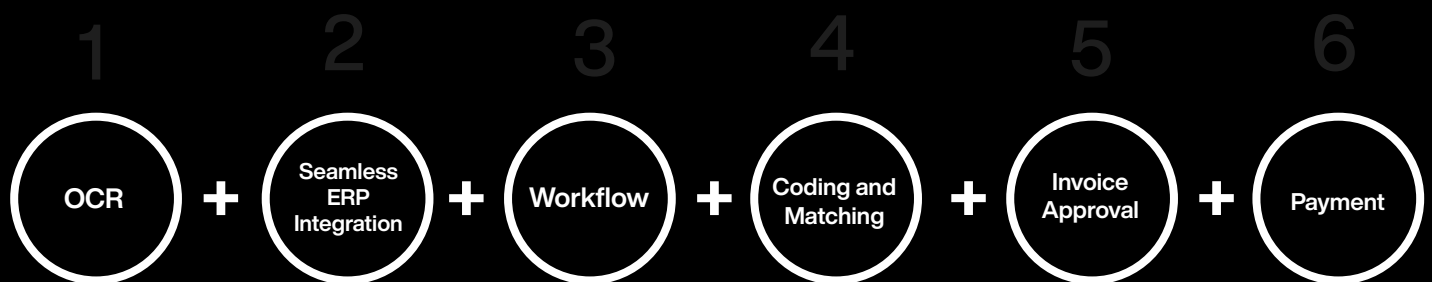

Automation Across the Entire AP Process

Offer your clients world-class AP automation, with easy and efficient functions to route, code, match, approve, comment, and access invoices.

With Dooap's mobile-first, cloud-native solution, your clients will receive:

- Seamless ERP integration using Dynamics 365 business logic.
- Automatic matching of PO invoices and easy coding of non-PO invoices.
- Machine learning capabilities, Power BI analytics, and OCR.

Microsoft preferred solution, available on Microsoft AppSource.

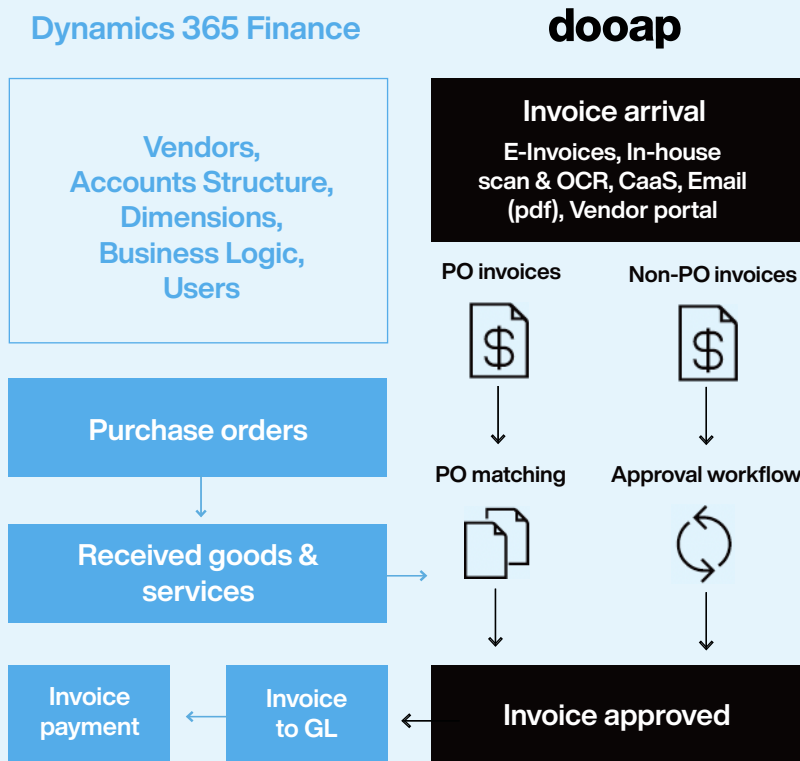

You should not settle for a partial solution. Dooap takes care of it all.

Dooap on D365 Finance: It Just Works

Seamlessly integrated with D365 by the leading provider of Dynamics invoice automation, Dooap works “right out of the box” in conjunction with D365. It uses all the data already in the ERP and follows the business logic built inside Dynamics.

Dooap Architecture

Dooap is a cloud-native solution with seamless integration to Cloud and On-Premise D365 Finance or utilizing standard Dynamics purchase functionalities.

Because it uses D365’s familiar business logic and terminology, your Dynamics clients will adopt Dooap quickly. Dooap provides transparency and predictability in the AP process, leading to better business decisions and competitive advantage.

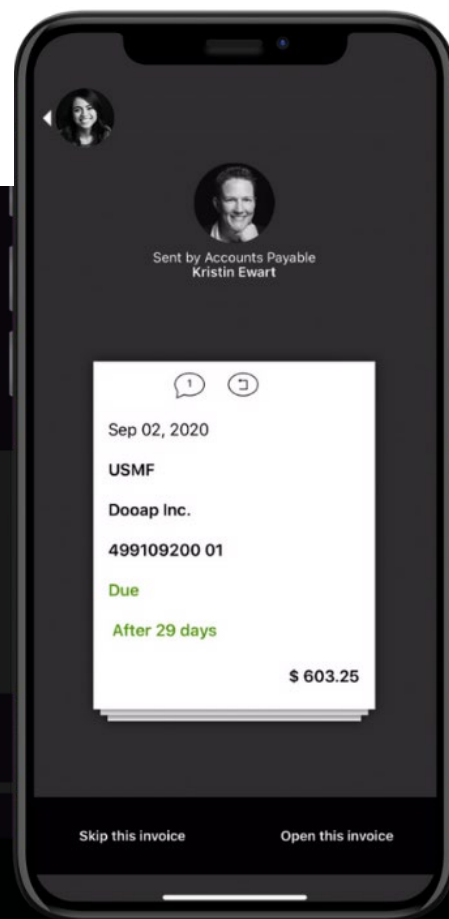

Dooap leverages Microsoft Azure features like Single Sign-On, Machine Learning and Power BI, as well as Microsoft-backed SLA. And because Dooap is fully aligned with Microsoft’s best practices and roadmaps, it will never become obsolete.

A One-of-a-kind Mobile App for Invoice Management

Work today is independent of time and place. Professionals should not be tied to their offices nor to paper-based processes. Dooap is designed with the optimal user experience in mind. It is a true cloud-native, mobile-first solution that serves the mobile workforce and tomorrow's needs.

Invoice processing is as easy on a mobile device as it is on a desktop.

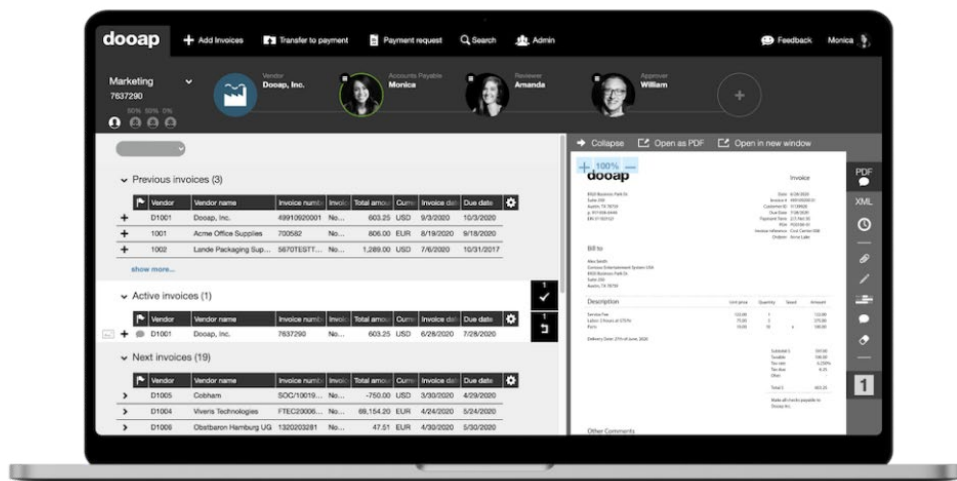

- Review
- Comment
- Approve
- Route
- Code
- Access invoice history

From AP Professionals, for AP Professionals

Automation – giving your clients more time to respond to anomalies than handling routines – combined with a user-friendly interface makes work more motivating and less error-prone.

Dooap’s top performing AP functions drive greater process efficiency and delivers strategic value to enhance your client’s business goals. It is also perfect for Shared Service Centers; your clients can handle all their invoices through a single view.

When you have a tool that is both easy and fun to use across the organization, more work gets done in a shorter time and at a lower cost.

Take the Pain Out of Your Client's AP Process

AP shouldn't be cumbersome, inefficient and costly. AP processes should be automated, interesting and rewarding. Dooap is well-designed and secure software that manages AP processes efficiently.

For AP

- Lowers the cost of the purchase-to-payment journey
- Automation reduces errors and speeds up processes
- Allows reallocation of resources from routines to exceptions and planning

For Business

- Mobile app makes work independent of time and place
- Fun to use, increases motivation
- Easy adoption among end-users and the organization

For IT

- Cloud-native and scalable
- Fully Microsoft Azure and Microsoft Dynamics 365 Finance compatible
- Enhances the value of ERP investment

What Our Clients Say

- “ I find Dooap helps simplify the process of approving invoices. User friendly as well.”
- “ Overall, very happy with Dooap!”
- “ It has made my job so much easier, less chance for human error. Very fast invoice entry and gives me time to focus on other areas of making our AP process more efficient. I love Dooap!”
- “ Dooap delivers excellent results, it's user friendly and is constantly improving the work processes.”
- “ The system is reliable and easy to use.”
- “ As a user I love Dooap, it saves me so much time.”
- “ So far the system has been very reliable and the IT support is very responsive when there are any issues. There are also frequent upgrades to correct and improve the software.”
- “ Dooap was great at answering our questions in a timely manner. They even would develop new system improvements if necessary. Plus the tool is extremely easy to use.”
